ABSTAINED:

2. Citizen's Comments

Irwin Fust suggested the commission form an ad hoc committee to develop a drone policy at the Red Bluff Airport.

Director Henz encouraged the commission to gather information regarding drone regulations and he would add the subject to the next agenda in May.

Director Henz and Commissioner Chamblin explained the formal process necessary to form an ad hoc committee.

Commissioner Wulfert suggested the commission look at other airports that have already established drone regulations and then customize their regulations to fit the Red Bluff Airport's needs.

3. Current Business

3.1 Fixed Base Operator—Cardan Aircraft Services

Gary Walker, owner of Cardan distributed copies of the last five years of fuel reports and pointed out a decrease in sales.

4. Old Business

4.1 Restaurant

Henz reported the restaurant project is progressing slowly partially due to change orders which have affected the sequence of work. Staff is helping with some of the work outside of the building which wasn't part of the original concept but it's to the overall benefit of the restaurant. Change orders have slowed the progress but they have resulted in an increased product, a better outside area, a new roof, additional kitchen equipment and a better layout.

5. Comments

Dave Hall reported that taxiway Alpha is deteriorating.

Irwin Fust reported that taxiway Delta is deteriorating too.

Meeting Adjourned at 6:21 p.m.

Respectfully,

Bruce Henz
Public Works Director
Airport Manager
