Yvonne Scott, resident, thanked the City Council for listening to her concerns and allowing two parking spaces. She appreciates the effort and time taken to address her needs.

Mr. Nichols reported that the City Council had two options to choose from.

Mr. Barthel stated that no additional costs and pointed out that the new option loses 7 parking spaces on the other side of the street.

Councilmember Brown stated that this area on the east side was no parking anyway.

Mr. Barthel stated that was correct, but it was not in the City Code so it could be enforced. An additional area is being designated no parking, but the individual apartment owners were notified.

Mayor Pro Tem Irving requested clarification from Police Chief Capilla on the traffic in this area and if the configuration harms laws enforcement issues.

Chief Capilla stated that this will assist the department in the number of accidents in the area and that the configuration will not harm, but will help law enforcement.

Ms. Van Warmerdam stated that these fell in her domain and that she has a consultant that monitors the grants and keeps her informed of violations.

City Manager Martin Nichols pointed out that these grants are monitored by the State.

Councilmember Byrne stated that it bothered him that the State is loaning the City money and the City is then loaning money out with no benefits to the City.

Ms. Van Warmerdam stated that the City benefits by having low to middle income housing available, which is something that the State had asked the City to address.

City Manager Martin Nichols stated that it was State Law requiring that the City provide a certain number of low income homes.

Councilmember Brown asked if the grant paid for City staff time.

Ms. Van Warmerdam stated that the City could be reimbursed for staff time, but staff wants to see as many loans distributed as possible.
